

Alaska Department of Fish and Game

Data Summary

Summary of Southeastern and South Central Districts and Unimak and Southwestern Districts, 2025 commercial chum salmon harvest and number of samples collected for genetic analysis, provided by date and grouped by gear type.

Notes:

Harvest information includes commercial harvest and excludes test fishery and personal use harvest and was queried from the statewide fish ticket database on February 3, 2026.

* denotes confidential information

- denotes that either no samples were collected or the fishery was not open on that date.

Note: When samples were collected from more than 1 days harvest, the date of collection was listed as the first day. This can often differ from delivery/harvest date. Harvest numbers may differ from those reported elsewhere due to updates to fish ticket data. Asterisk (*) denotes confidential data. En dashes (–) indicate that either no samples were collected or the fishery was not open on that date.
