I oppose proposal 57. If we really think about this idea, it is wrong. One, because at the next meeting on the Bay in the Bristol Bay region, who is going to bring up Clark's Point to Nushagak Point for set nets to do this? Two, then the next year, it will be Nushagak Point set netters of Bristol Bay to Coffee Point. Then, it will be Coffee Point to Igushik Beach. Next, it will be set netters from Igushik Beach to Nicholas Hills.

You know that all these people on these local Boards and ADF&G offices are family and cousins of these set netters. You are cutting off the gill netters fishing area, which should be left very much alone as is.
