

To whom it may concern,

I am writing with deep concern for the wildlife in your region. It is cruel and unfair to take the lives of innocent, beautiful creatures.

It is the natural way of life for bears and wolves to kill caribou as their meal. It is not for humans to get involved with their machines and take matters into their own hands without the care of the life of bears and wolves. It is particularly unfair for these lives to be taken for no benefit to the killer. In hunting/gaming, the purpose of killing is to use the life of the animal to continue more life- which would be meals for the hunter. If it is not that, then it is simply cruel and injustice.

These animals should not be killed for simply existing. They are doing nothing wrong. Please please save humanity by protecting our wildlife (in this case our bears and wolves) and stop the wrongful killing!

Sincerely,
Sara Graffin
