

Dear Government officials ,

My name is Princess S. Turtogo, I am writing to you to express my concern regarding the bear population of magnificent Alaska. I plead with you to take immediate action and stop the killing of the bears from that area. Not only do these animals play a vital role in the natural ecosystem of Alaska, but they also represent the wild beauty and strength of this land. The continued hunting and killing of bears, especially for sport or trophy, upset the ecological balance and cause needless suffering. Like most others in the world, we want this to stop.

These magnificent and intelligent animals should be protected, not persecuted. Please think about more robust, long-term bear protections in Alaska and strive for conservation laws that respect biodiversity, life, and peaceful coexistence. The decisions we make today will determine the legacy we leave for future generations, and the entire world is watching. We appreciate your leadership, thoughtfulness, and time in protecting Alaska's natural heritage.

Sincerely,

Princess S. Turtogo
