

Do not continue nor allow arial killing or random killing of bears. This bear killing is wrong and misguided. The Superior Court has ruled twice that this is illegal and to stop and yet you have allowed and required folks to go out and shoot the bears. Why are you insisting to go against the wishes of the citizens of Alaska and all the tourists who come up to see the magnificent wildlife of this State. It's repulsive & arrogant of you to dismiss the Constitution of the State.
